Notice of Discontinuation

Dear Valued Customer,

As previously announced, iPolymer manufacturing in Irvine California, will be transferred to a new, state of the art manufacturing facility in Sioux Falls, South Dakota at Graco, White Knight Fluid Handling's parent corporation.

In order to focus our transition efforts, and to maintain high levels of customer service, and quality of supported product, a review of the product offering was performed to identify options and models that have been ordered infrequently, and with low volume in recent years from iPolymer.

The analysis resulted in a 30% reduction in total option count, affecting less than 2% of iPolymer business by revenue.

Your sales rep will be contacting you with specific SKUs and availability of last time buy, and/or alternate products where applicable. Additionally, a summary of the affected models can be found in Appendix A attached to this notice.

Please note that all last time buy orders must ship prior to December 15, 2023, when iPolymer will be fully transitioned out of their current location.

We apologize for any inconvenience this may cause, but we are confident that this change will allow White Knight to continue providing our customers with best-in-class support.

Please feel free to contact us with any questions and concerns.

With Regards,

Cory Simmons

Cory Simmons,
Product Manager
White Knight Fluid Handling
