White Knight Announces Acquisition of International Polymer Solutions

Kamas, Utah (March 17, 2022) – White Knight Fluid Handling Inc., a subsidiary of Graco Inc. (**NYSE:GGG**), announced today that it has acquired International Polymer Solutions Inc. (iPolymer). iPolymer, headquartered in Irvine, California, has more than 30 years of experience manufacturing high-purity fluid handling solutions.

iPolymer's dedicated team of engineers and manufacturing specialists are experts in a variety of plastic machining and fabrication serving a broad spectrum of industries, including semiconductor, life sciences, gas analytics and general chemical. The company offers pneumatic valves, solenoid valves, manual valves, air cylinders, spray guns, fittings, connectors, manifolds and custom plastic fabrication.

"Having access to iPolymer's manufacturing capabilities and product lines will enable White Knight to provide our customers with even more high-purity fluid solutions – enabling us to become a one-stop supplier for all of our advanced OEM customers," said David Simmons, White Knight's Vice President of Sales. "With the company's 30-plus years manufacturing for the semiconductor market, combined with the decades of experience from White Knight, we will offer a wealth of application knowledge, product expertise and even more manufacturing capabilities to support our combined customers."
