* Fiber optic cables ordered separately.
 Fiber optics are required for operation.
 Standard configuration includes dual probe
 WITHOUT fibers. See stroke detect options to
 order fiber optic cables or single probe option.

Timer mode operation requires end-of-stroke
 detection. Use of timer mode without stroke
 detection voids the warranty.

This pump includes Quick Exhaust Valves (QEV).
 QEVs must be used with this pump. Operating it
 without QEVs voids its warranty. Customers may
 use their own QEVs with the optional NPT adapter.
